

GLOSSODIA GLASS HOUSE

- HAMPTONS IN THE HAWKESBURY

Situated on a semi-rural property in the foothills of the Blue Mountains, lies this sprawling Hamptons inspired home.

This 4 bedroom home with adjoining two bedroom cottage is the dream home for the clients of JCD Building and Everclear Windows. Although constructed throughout the 2020 summer bushfires, floods, and COVID-19, the build was remarkably completed on time and on budget!

The location is subject to large variations in temperature throughout the year plus a BAL Low bushfire rating. With a large amount of glazing specified in the design, Everclear Windows were tasked with the job of delivering nearly 40, Hamptons inspired windows and doors that could also meet the performance demands of the local environment.

Colonial bar work, double hung windows, French doors and a Pearl White Gloss finish with colour matched ANDO™ hardware were chosen to achieve this traditional and timeless look.

The Commercial Series 453 Double Hung windows were chosen as a feature window set throughout the home due to their timeless appearance and ability to maximise natural ventilation. Where an alternative awning or casement window configuration was used, colonial bars were fitted to the fixed lights above to provide continuity to the Hamptons design theme.

Complimenting these traditional window formats, large 50 Series Commercial French Doors were used as statement features in the living and entertaining areas. This allows a seamless passage to and from the alfresco and indoor dining areas.

elevatewindows.com.au

A ViewMASTER™ BiFold Servery Window completes the clients brief for a homely entertaining space delivering an uninterrupted connection from the kitchen to the north facing rear deck.

The customer feedback is testament to Everclear's quality of service and ability to provide custom fabrication solutions with the Vantage® and Elevate™ product ranges.

Courtesy of the beautiful colour finishes, colour matched hardware and amazing service, Everclear and Elevate™ were an easy choice for windows and doors for this very special build.

Builder: JCD Building, Building Designer: Adan Creative Designs

■ SERIES 453 COMMERCIAL DOUBLE HUNG WINDOW

- ✗ Vertical sliding, double-hung sashes are inlaid directly into commercial framing to suit larger window spans.
- ✗ This window can even be fitted with concealed flyscreens to give your building a sleek, modern appearance.
- ✗ Suitable for cavity brick and brick veneer construction.
- ✗ If security is a concern, you can breathe easy with the added protection of our heavy-duty, key lockable catch with die-cast keeper.
- ✗ Bi-fold design allows sashes to bypass each other for easy cleaning from inside the building.
- ✗ Tested to a water resistance of 200Pa.

Maximum Panel Height: 1050mm
Maximum Panel Width: 1155mm
Maximum Glass Thickness: ≤7.5mm
